In 1976 the plant started its operational activity in Istanbul (Turkey).

In that time manufacturing sites was around 40 m2.

Next 10 years the plant manufactured production for consumer electronics and car manufacturing.

In 1989 SPK the plant was the first manufacturer that started to produce pipes for tap water and fittings made from PPR-C.

As a result, in Turkey was formed a new branch of industry.

In 2000 the plant started to produce and sell pipes and fittings

for sewage system made from PP-R.

In 2012 the plant started to produce brass fasteners and brass-wares.

The company places special emphasis on quality of production, choosing equipment suppliers very carefully and responsibly. The company covers strict quality and process control. That is why all production of Plus Trading Company has at least 10 years quality warranty.
